FLY AIR PREMIUM | PREMIUM TOURING

It's time to blow up. The Fly Air is the ultimate inflatable Funboard. Inspired by our outstanding Fly range of traditional SUP boards, it features a stretched longboard-style outline combined with plenty of volume. The smaller sizes have customizable fin options to help you rip up swell or simply improve maneuverability. For 2014, we'll also introduce two new sizes – the 10'8" and the 10'0" to bridge the gap between 9'0" and 10'6". Meet the Fly Air Touring board, the inflatable version of our Ray cruiser. Exploration, longer paddle sessions, or even multi-day SUP tours are all easy with this multi-use inflatable SUP. The Fly Air Touring models – in both Stringer Technology construction and our Premium Edition Double Layer Technology – will offer a handy deck net that lets you pack a picnic for a lakeside lunch. You can go anywhere with the Fly Touring board. Fly Air Premium 10'8", 11'0" and 12'0" have a mastfoot insert for windsurfing option.

KEY FEATURES

- Full double layer technology from world's most renowned manufacturer
- Unmatched air pressure/stiffness due to quality materials and manufacturing process
- Full deck and base printing for outstanding optic, unmatched in industry
- Quality footpad and handle, towing eyelets
- Integrated deck net supplied for storage on deck
- Top quality bag for storage and transport, paddle shoulder straps, inner storage pockets
- Industry standard Bravo pump for top quality

FLY AIR PREMIUM ALLROUND

- Four sizes to choose from to suit any riders needs and weights
- Glued side fins/removable centre fin with zero tools needed
- Windsurfing option included on 10'8" size

FLY AIR PREMIUM TOURING

- Removable fin with zero tools needed
- Mastfoot insert for windsurfing option

RACE
FLY AIR RACE

Want to race – but don't want the hassle of a hauling around fourteen feet of rigid board? You need the Fanatic Fly Air Race. In both full-size 14'0" and BOP-ready 12'6", the Fanatic Fly Air Race Inflatables are among the first race-ready inflatable boards on the market today. To make sure you're on the perfect race board for you, both are available in two different volumes, (274 and 300 liters for the 12'6", 314 and 345 liters for the 14'0") for a total of four boards ready to paddle to the first place at the finish line.
